

MEDICAL ADVISORS, INC

TECHNICAL NETWORK CONSULTING SERVICE®

LEGAL NURSE CONSULTANTS

Experts for Cases Involving Health, Injury or Illness
By Nurse from New Jersey

When an attorney thinks of utilizing a Legal Nurse Consultant, nursing and medical malpractice cases are natural fits, but there are other areas of law where their services can be of great benefit.

Nurses' knowledge of health and disease combined with care management and the inner workings of the health care delivery system can be utilized by lawyers in Marital and Family Law, Elder Law and Wills and Estates. It is here the nurse can identify medical conditions and interpret the impact they have on custody, work, and competency issues and long term care needs. Nurse care managers can be court assigned to ensure medical continuity after the legal game plan is outlined. The nurse with long term care, home and geriatric experience can assist the Elder Care lawyer, client and family by outlining the medical conditions, identifying risk areas and developing a specific plan of care that works within the medical, legal and financial constraints of the client/family....

There are numerous experts who are more than willing to provide testimony for medical malpractice and personal injury litigation cases. Finding the right one is crucial to the strength of your particular case.

Since 1983, Medical Advisors has assisted in the selection of expert witnesses in several thousand cases. Working with plaintiff and defense bar, we have provided medical opinions and testimony which have resulted in competent preparation and in-court support for cases involving medical malpractice, hospital negligence, personal injury, workers' compensation and product liability.
